PUMP UP THE VOLUME

Big hair, don't care. *Cubana* actress **Natalie Martinez** takes three basic dos to bold new heights.

GET IT GIRL Stylist Cynthia Alvarez, who created these looks, says for big, sexy waves, start in the shower. A volumizing shampoo and conditioner are the perfect prep. While your hair is still damp, spritz on a body-building mist, then blow-dry with a round brush. The key while blow-drying is to "over direct" the brush—forget about your natural part and blow upward and outward—to create maximum volume at the roots. Once your hair is completely dry, curl it with a one-inch curling iron. Let your curls cool for a few minutes and then, grabbing a few at a time, gently tease the underside of each section (be careful not to destroy the curl pattern on top) with a boar bristle brush. Smooth the hair at your crown with the brush and set with hairspray.

L'ORÉAL PARIS Advanced Haircare Volume Filler Thickening Shampoo and Conditioner, \$4.99 each.

SHOW BEAUTY Lux Volume Mist, \$55.

GOLD 'N HOT 1" Curling Iron, \$39.
